

Summary Table for Proposed Hope Gate 1 Fuels Treatment Units

Unit #	Existing Vegetation	Treatment	Acres +/-
1	Dead white spruce, scattered spruce, cottonwood	Salvage dead spruce, pile & burn slash, thin spruce to 20x20 feet	8
2	Pole-sized birch with spruce and mountain hemlock	Shaded fuel break, thin spruce to 20x20 feet, pile and burn slash	11
3	Sapling/Pole-sized birch 3"-9" diameter with white spruce 6"-8"	Thin spruce 20x20 feet, thin birch 12x12 feet ⁹ , pile and burn slash	57
4	Hemlock/spruce stand along Palmer Road	Salvage dead spruce along road, pile and burn slash	4
5	Pole-sized paper birch with spruce	Thin spruce to 20x20 feet within 200 feet of road, pile and burn slash	18
6	Mixed stands along Palmer Road with dead spruce	Salvage dead spruce along road, hand pile and burn slash	37
7	Dead white spruce	Salvage dead white spruce - firewood, pile and burn slash	6
8	Mountain hemlock/spruce stand along Palmer Road	Salvage dead spruce, pile and burn slash	2
9	Mixed dead white spruce with mountain hemlock	Salvage dead white spruce, pile and burn	13
10	Mountain hemlock/spruce stand along Palmer Road	Salvage dead spruce, pile and burn slash (partial hand piled)	24
11	Aspen south of mining road; birch, willow, spruce north	Remove spruce south, hand pile and burn, regenerate birch north	35
12	Mixed spruce, mountain hemlock and birch along mining road	Remove dead/down/dying spruce, hand pile and burn slash	6
13	Scattered dead white spruce in mountain hemlock	Salvage dead white spruce, pile and burn slash	41
14	80-year old mountain hemlock 3"-10" diameter; dense stand	Thin small diameter by hand crew; treat large diameter with equipment	55
15	Spruce with pockets of dead spruce	Remove dead/down/dying spruce hand/machine, pile and burn slash	20
16	Aspen 60+ years old	Open stand up, remove conifer, burn piles	6
17	Scattered dead white spruce in mountain hemlock stand	Firewood or salvage dead white spruce; pile and burn slash	9
18	10"-14" dead white spruce	Salvage dead white spruce; pile and burn slash	6
19	Dead white spruce and mountain hemlock	Salvage dead white spruce; pile & burn slash	15
20	Mixed dead white spruce and mountain hemlock	Fell, hand pile and burn dead white spruce	4

Unit #	Existing Vegetation	Treatment	Acres +/-
21	10"-18" diameter dead white spruce	Machine operable, remove dead white spruce as firewood and/or house logs	14
22	Pole-sized mountain hemlock with scattered dead white spruce greater than 10" diameter	Remove dead white spruce - firewood and pile and burn slash	12
23	Coeur D'Alene Campground scattered dead white spruce	Campground maintenance - cut/pile/burn slash	7
24	Birch, willow, spruce	Thin spruce around birch and willow to open canopy, pile and burn slash	9
25	Dead white spruce	Remove dead white spruce, pile and burn slash	9
26	Dead white spruce	Remove dead white spruce, pile and burn slash	4
27	Dead White spruce with pockets of mountain hemlock, some birch	Remove dead and dying spruce, pile and burn slash	32
28	Dead White spruce with pockets of mountain hemlock, some birch	Remove dead and dying spruce, pile and burn slash	22
29	Dead White spruce with pockets of mountain hemlock, some birch	Remove dead and dying spruce, pile and burn slash	8
30	Mixed mountain hemlock and spruce along Hope Highway	Remove dead and dying spruce, pile and burn slash	149
Power line units	Dead White spruce with pockets of mountain hemlock, some birch	Remove dead white spruce; hand pile and burn slash	239
		Total Acres	882
